Supplemental Box

(To be used when the space in any of the preceding boxes is not sufficient)

Continuation of: Boxes I - VIII

Sheet 10

III. NON-ESTABLISHMENT OF REPORT:

Claim numbers 4-11, 13-15, 17, 20, 21 are so inadequately supported by the description that no meaningful report could be formed.

V. 2. REASONED STATEMENTS - CITATIONS AND EXPLANATIONS (Continued):

Claims 1-3, 18-19 comply with PCT Article 33(2) because the prior art, while describing there insulin sensitizer for the treatment of type II diabetes mellitus are silent on the claim recited parameter of a least a threshold plasma concentration level of their inherently effect on bust, and for claim 19, the provision of a delayed pulsed or sustained release composition for it.

Claims 16 and 17 do not comply with PCT Article 33(2) lacking novelty over each of:

Hindley - U.S. 5,002,953

Antonucci - U.S. 5,457,109

Olefsky - U.S. 5,478,852 and U.S. 5,708,012

Regnier - U.S. 5,478,853 and 5,506245

Smithkline Beecham - WO 94/05659 and EP 419035

Encompassed composition of each describing effective amounts of these insulin sensitizer to Type II diabetes mellitus.

(54) Title: NOVEL METHOD OF TREATMENT

(57) Abstract

A method for the treatment of Type 2 diabetes mellitus and conditions associated with diabetes mellitus, which method comprises the administration to a human or non-human mammal in need thereof, of an effective non-toxic amount of an insulin sensitiser so as to provide a plasma concentration of the insulin sensitiser of at least a threshold level (the "Threshold Plasma Concentration") from within the range of effective plasma levels of the insulin sensitiser, compositions for use in such method and methodology for determining plasma concentrations of active agent use in such methods.

International application No. PCT/US99/26746

Box I Observations where certain claims were found unsearchable (Continuation of item 1 of first sheet)
This international report has not been established in respect of certain claims under Article 17(2)(a) for the following reasons:
1. Claims Nos.: because they relate to subject matter not required to be searched by this Authority, namely:
Claims Nos.: because they relate to parts of the international application that do not comply with the prescribed requirements to such an extent that no meaningful international search can be carried out, specifically:
3. X Claims Nos.: 4-11, 13-15, 17, 20 because they are dependent claims and are not drafted in accordance with the second and third sentences of Rule 6.4(a).
Box II Observations where unity of invention is lacking (Continuation of item 2 of first sheet)
This International Searching Authority found multiple inventions in this international application, as follows:
1. As all required additional search fees were timely paid by the applicant, this international search report covers all searchable claims.
2. As all searchable claims could be searched without effort justifying an additional fee, this Authority did not invite payment of any additional fee.
3. As only some of the required additional search fees were timely paid by the applicant, this international search report covers only those claims for which fees were paid, specifically claims Nos.:
<u>.</u>
4. No required additional search fees were timely paid by the applicant. Consequently, this international search report is restricted to the invention first mentioned in the claims; it is covered by claims Nos.:
Remark on Protest The additional search fees were accompanied by the applicant's protest. No protest accompanied the payment of additional search fees.
